Sonae Sierra Brasil distinguished by ICSC

- International Shopping Centre Association acknowledges the dynamic promotion of the company
- Two centres distinguished for good sustainability practices

Sonae Sierra Brasil has just seen its activity distinguished with three awards at this year's edition of the Latin American Shopping Center Awards, which rewards the best practices in the shopping centre sector in all of Latin America. Sonae Sierra's subsidiary was rewarded for the dynamic organisation of relevant events, and two of its Shopping Centres for their bet on sustainability and operational efficiency.

Sonae Sierra Brasil won the Gold prize in the "Promotion and Events" category for its Christmas action in 2012, signed by visual artist Romero Brito. Besides this distinction, two Shopping Centres were also rewarded for their activities. Shopping Metr pole, in S o Bernardo do Campo, received the Gold prize in the "Operations" category for its Sustainability in Waste Management Programme, in which employees were trained for the correct separation of waste. Parque D. Pedro Shopping, in Campinas, received the Silver award in the same category, for its Operational Efficiency programme, which successfully reduced water and energy consumption while increasing its recycling rate.

For **Fernando Guedes de Oliveira, Sonae Sierra's CEO**, "these distinctions are an acknowledgement of our management ability and the quality of our operation in Brazil and also recognize Sonae Sierra's commitment to sustainability".
