The ALEXA shopping centre in Berlin, Germany, owned by Sonae Sierra and Union Investment, has received a commendation for the best shopping centre in the "Established Centres" category during the ICSC European Shopping Centre Awards 2014. The prestigious international awards event, organized by the International Council of Shopping Centres (ICSC) this year as part of the ICSC European Conference in Istanbul, Turkey, distinguishes Europe's most outstanding shopping centres each year.

ALEXA's commendation reflects the shopping centre's remarkable success in terms of its location, planning, architecture, tenant mix, sales, and financial results. Inaugurated in 2007, the project was developed by Sonae Sierra and Foncière Euris. Today, ALEXA is owned by Sonae Sierra and Union Investment, and Sonae Sierra remains responsible for the property management of the shopping centre.

"We are proud to receive this important recognition at the ICSC European Shopping Centre Awards 2014 for the category of Established Centres. This commendation confirms that throughout its six years of operations, ALEXA has remained a benchmark for excellence within the shopping centre sector in Europe. It also recognises the continuous development of our teams' professional management skills, which have enabled ALEXA to grow year on year in terms of success and attractiveness", said Sonae Sierra General Manager responsible for Property Management Germany, Jens Horeis.

“ALEXA is one of the most successful shopping centres in our retail real estate portfolio. Its unique location at the heart of the German capital, its unparalleled shopping experience, appealing ambience, and high visitor numbers all continue to reflect its excellent operational performance. We are very happy that this high-quality shopping centre has been recognized with an ICSC European Shopping Centre commendation”, said Volker Noack, Member of the Management Board of Union Investment Real Estate GmbH.

The members of the ICSC jury highlighted the fact that the ALEXA shopping centre has established itself as one of Europe's best established centre due to its successful development and design, as well as its operational achievements with high and steadily increasing visitor numbers and sales. The evaluation also highlighted the shopping centre's numerous innovative services such as digital solutions for both tenants and visitors, the blind visitor system, and the availability of fashion consultants. Further aspects included the quality of ALEXA's centre management and marketing strategy, which includes numerous successful promotions and crowd-pulling events involving popular celebrities. Another important feature of ALEXA's operational performance was the benefits of including sustainable features such as reducing greenhouse gas emissions, the use of renewable electricity or the battery stations for electrical cars in the centre's parking areas, which improve efficiency and resource resilience.
