# Sonae Sierra partners with COSTIM for Chorus Life Bergamo

- Sierra will take care of the leasing of the retail spaces of Chorus Life Bergamo
- Chorus Life Bergamo is an integrated urban scheme focusing on the individual and their needs, in which social well-being, economic profit, sustainable architecture and smart technology are perfectly blended

**Sierra** is pleased to announce a further step in its growth in Italy, inking a partnership with **Chorus Life** for the leasing of the retail area of the **new model of the "City of the future" developed by POLIFIN group and constructed by COSTIM.**

Chorus Life is an innovative smart city scheme for living, socialising, and growing together, while sharing the same space: an environment that promotes intergenerational interaction and social well-being.

Sonae Sierra embraces the values and vision of the Chorus Life Bergamo project, a perfect example of how society visualises the urban spaces of the future: multifunctional areas where self-care translates into a unique experiential path that perfectly combines innovation and sustainability with retail, adapted to the different needs of the community.

*"We are very proud to have been chosen by Chorus Life as partner for the marketing of the retail spaces of this major urban regeneration project in Bergamo. We are collaborating to provide the future community of the "City of the future" with a unique, integrated experience. Sonae Sierra supports the idea of Chorus Life and COSTIM to create urban spaces which are a social fulcrum, without losing sight of innovation and sustainability,"* says **José Maria Robles, General Manager for Property Management, Sonae Sierra, Italy.**

### About Sonae Sierra

Sierra operates in the real estate sector with an integrated business approach. We look for robust platforms from which we can create solid strategies for return on investment, in different parts of the world. From commercial spaces to public spaces or residential schemes, from project management to turnkey projects, we are at the forefront of knowledge in the sector and are therefore the ideal partner for the development of innovative concepts.

Currently, Sonae Sierra is present in 11 countries and manages on a global level more than €8 billion of real estate across different sectors and asset classes.
